ORGANISATION FOR ECONOMIC CO-OPERATION AND DEVELOPMENT

Pursuant to Article 1 of the Convention signed in Paris on 14th December 1960, and which came into force on 30th September 1961, the Organisation for Economic Co-operation and Development (OECD) shall promote policies designed:

- To achieve the highest sustainable economic growth and employment and a rising standard of living in member countries, while maintaining financial stability, and thus to contribute to the development of the world economy.
- To contribute to sound economic expansion in member as well as non-member countries in the process of economic development. And
- To contribute to the expansion of world trade on a multilateral, non-discriminatory basis in accordance with international obligations.

The original member countries of the OECD are Austria, Belgium, Canada, Denmark, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, the Netherlands, Norway, Portugal, Spain, Sweden, Switzerland, Turkey, the United Kingdom and the United States. The following countries became members subsequently through accession at the dates indicated hereafter: Japan (28th April 1964), Finland (28th January 1969), Australia (7th June 1971), New Zealand (29th May 1973), Mexico (18th May 1994), the Czech Republic (21st December 1995), Hungary (7th May 1996), Poland (22nd November 1996), Korea (12th December 1996) and the Slovak Republic (14th December 2000). The Commission of the European Communities takes part in the work of the OECD (Article 13 of the OECD Convention).

In order to achieve its aims the OECD has set up a number of specialised committees. One of these is the Development Assistance Committee, whose members have agreed to secure an expansion of aggregate volume of resources made available to developing countries and to improve their effectiveness. To this end, members periodically review together both the amount and the nature of their contributions to aid programmes, bilateral and multilateral, and consult each other on all other relevant aspects of their development assistance policies.

The members of the Development Assistance Committee are Australia, Austria, Belgium, Canada, Denmark, Finland, France, Germany, Greece, Ireland, Italy, Japan, Luxembourg, the Netherlands, New Zealand, Norway, Portugal, Spain, Sweden, Switzerland, the United Kingdom, the United States and the Commission of the European Communities.

ORGANISATION DE COOPÉRATION ET DE DÉVELOPPEMENT ÉCONOMIQUES

En vertu de l'article 1^{er} de la Convention signée le 14 décembre 1960, à Paris, et entrée en vigueur le 30 septembre 1961, l'Organisation de Coopération et de Développement Économiques (OCDE) a pour objectif de promouvoir des politiques visant :

- A réaliser la plus forte expansion de l'économie et de l'emploi et une progression du niveau de vie dans les pays membres, tout en maintenant la stabilité financière, et à contribuer ainsi au développement de l'économie mondiale.
- A contribuer à une saine expansion économique dans les pays membres, ainsi que les pays non membres, en voie de développement économique.
- A contribuer à l'expansion du commerce mondial sur une base multilatérale et non discriminatoire conformément aux obligations internationales.

Les pays membres originaires de l'OCDE sont : l'Allemagne, l'Autriche, la Belgique, le Canada, le Danemark, l'Espagne, les États-Unis, la France, la Grèce, l'Irlande, l'Islande, l'Italie, le Luxembourg, la Norvège, les Pays-Bas, le Portugal, le Royaume-Uni, la Suède, la Suisse et la Turquie. Les pays suivants sont ultérieurement devenus membres par adhésion aux dates indiquées ci-après : le Japon (28 avril 1964), la Finlande (28 janvier 1969), l'Australie (7 juin 1971), la Nouvelle-Zélande (29 mai 1973), le Mexique (18 mai 1994), la République tchèque (21 décembre 1995), la Hongrie (7 mai 1996), la Pologne (22 novembre 1996), la Corée (12 décembre 1996) et la République slovaque (14 décembre 2000). La Commission des Communautés européennes participe aux travaux de l'OCDE (article 13 de la Convention de l'OCDE).

Pour permettre à l'OCDE de réaliser ses objectifs, un certain nombre de comités spécialisés ont été créés. L'un de ceux-ci est le Comité d'Aide au Développement, dont les membres ont décidé, en commun, de parvenir à un accroissement du volume total des ressources mises à la disposition des pays en développement et d'en améliorer l'efficacité. A cette fin les membres examinent, ensemble et périodiquement, à la fois le volume et la nature de leurs contributions aux programmes d'aide, établis à titre bilatéral et multilatéral, et se consultent sur toutes les autres questions importantes de leur politique d'aide.

Les membres du Comité d'Aide au Développement sont : l'Allemagne, l'Australie, l'Autriche, la Belgique, le Canada, le Danemark, l'Espagne, les États-Unis, la Finlande, la France, la Grèce, l'Irlande, l'Italie, le Japon, le Luxembourg, la Norvège, la Nouvelle-Zélande, les Pays-Bas, le Portugal, le Royaume-Uni, la Suède, la Suisse, et la Commission des Communautés européennes.

INTRODUCTION

1. This book continues a series, originally titled "Geographical Distribution of Financial Flows to Developing Countries", which began in 1977. It adapts that publication to the two-part DAC List of Aid Recipients introduced in 1993 which includes the countries of Eastern Europe and the former Soviet Union. The data cover:

- net and gross disbursements;
- commitments;
- terms; and
- the sector/purpose allocation of bilateral Official Development Assistance (ODA) commitments

for over 180 developing countries and territories and countries and territories in transition¹ for 1998, 1999, 2000, 2001 and 2002 with data on key indicators to provide perspective in interpreting the resource flow information for each. The aim has been to present a comprehensive record of the external financing of each country shown. The data show the transactions of each recipient country with:

- i) DAC member countries (individually or as a group);²
- ii) multilateral agencies (individually or as a group);
- iii) major Arab donors.

2. The member countries of the OECD Development Assistance Committee for which data are presented are: Australia, Austria, Belgium, Canada, Denmark, Finland, France, Germany, Greece, Ireland, Italy, Japan, Luxembourg, the Netherlands, New Zealand, Norway, Portugal, Spain, Sweden, Switzerland, the United Kingdom and the United States. Data for the European Commission (EC – taken to include the European Investment Bank), which is also a member of the DAC, are included under "multilateral agencies". A further separate line (EC + EU members) gives the sum of multilateral flows from the EC and bilateral flows from European Union member countries combined. The data on financial flows from multilateral sources cover the World Bank (including IBRD, IDA, IFC and the Trust Funds for the Global Environment Facility and the Montreal Protocol), IDB, AfDB, AfDF, AsDB, CarDB, EBRD, EC, IFAD, concessional flows from the IMF and the Nordic Development Fund. Financial flows from Arab-financed multilateral agencies, shown as a group, cover BADEA, the Islamic Development Bank and OFID, where available. The technical assistance and relief agencies of the United Nations cover mainly the following programmes or agencies: UNDP, UNHCR, UNRWA, UNICEF, WFP, UNFPA and the activities in developing countries funded from the regular budgets of other agencies, referred to here as United Nations Technical Assistance (UNTA).

Sources of Data

3. DAC bilateral flow figures are drawn from replies from member countries to questionnaires issued by the OECD Secretariat. Multilateral agencies also provide their data on a questionnaire issued by the OECD Secretariat. The coverage of flows from non-DAC bilateral donors varies over the years. In 2002, these data include flows from the Czech Republic, Estonia, Iceland, Israel, Korea, Kuwait, Latvia, Poland, Saudi Arabia, the Slovak Republic, Turkey and the United Arab Emirates. The data for these countries have been classified and processed as far as possible according to DAC norms and definitions.³

Comprehensiveness

4. The resource flow data shown are based on records that are comprehensive for the majority of the individual categories shown. The main omissions are:

- i) Private sector flows from non-DAC donors.
- ii) Grants by private voluntary agencies, for which no geographic breakdown is available.

Unallocated Amounts

5. A comprehensive total reported by a source usually includes a "geographically unallocated" component. This is excluded from the data for individual recipients in Sections B and C, which also include tables for "unallocated" and "all recipients combined". Administrative costs, which are mainly incurred on the territory of the donor country, are an example. A further portion of the amounts reported to DAC as geographically unallocated is properly classified thus e.g., research performed in the donor country for the benefit of developing countries (e.g., tropical diseases). Another portion reflects defective data collection procedures, or the effect of confidentiality restrictions requiring the non-disclosure of the identity of a partner country. For official sector transactions by DAC members and multilateral organisations, geographically unallocated amounts are too small in aggregate to cause a substantial understatement of the figure for a given recipient country. However, for private sector flows, there may be a fairly large understatement of a given country's net inflow. This is true of:

- a) countries hosting investment in the oil sector;
- b) countries hosting investment from reporters whose data include large geographically unallocated amounts (in particular Australia, Canada and New Zealand);
- c) countries whose investment inflows from DAC members have been channelled via an offshore centre which, while shown as the destination of

the transactions concerned, is not itself a reporter to DAC.

PRESENTATION

6. The report consists of three sections:

Section A

7. This section contains 34 tables covering the period 1996 to 2002. They show the receipts of each country or territory on the DAC List of Aid Recipients from DAC countries combined and all sources combined, respectively, of:

- a) Official Development Assistance/Official Aid: net disbursements (these flows only are also shown for each DAC member country separately);
- b) Official Development Assistance/Official Aid: commitments;
- c) Total Resource Flows: net disbursements.

Two tables show the receipts of each recipient country of net disbursements of concessional assistance ("multilateral ODA/OA") and total net disbursements from multilateral agencies combined. Two further tables show total net Official Development Financing, and total net private flows to each recipient from all sources combined. There is also a table showing each country's receipts of technical co-operation within the ODA/OA programmes of DAC countries combined. Each table in this section contains a recapitulation of the resource receipts of selected country groups.

Sections B and C

8. Section B deals with flows to developing countries and territories on Part I of the DAC List of Aid Recipients. Section C deals with flows to countries in transition on Part II of the List. Thus a country may appear in both sections if it was in Part I in some years and Part II in others. Each section presents a page of data for each country. Countries are in alphabetical order within the sections. At the end of each section there is an "overall total" table in an identical format. In Section B only, there is also a series of tables giving the same information for various income and geographical groupings of developing countries. Population, GNI per capita and other indicator data can be found at the end of each table.

Coverage

Detailed Tables for Individual Recipients by Origin of Resources

9. The individual country tables in Sections B and C contain information blocks showing the following types of flow by origin:

1. Total receipts net.
2. Total ODA net (Total OA net in Section C).
3. ODA loans gross (OA loans gross in Section C).
4. Grants.
5. Bilateral ODA commitments by purpose.

6. Reference section: Indicators.

Blocks 1-4 are on a disbursement basis. Block 5 is on a commitment basis.

10. In each table, flows from individual DAC members and multilateral agencies are shown separately along with sub-totals for DAC members and multilateral agencies, for non-DAC donors combined (see paragraph 3) and for the European Commission and EU members combined. The IMF figures are for SAF and PRGF transactions and concessional loans from the IMF Trust Fund only, and do not include recourse to IMF tranche drawings. Loans by banks resident in each DAC member country are included indistinguishably in the "Total Receipts Net" block.

11. The sectoral distribution of bilateral ODA commitments shown in block 5 refers to the economic sector of destination (*i.e.* the specific area of the recipient's economic or social structure whose development is, or is intended to be, fostered by the aid) rather than to the type of goods or services provided. These are aggregates of individual projects notified under the Creditor Reporting System, supplemented by reporting on the sectoral distribution of technical co-operation, and on actual disbursements of food and emergency aid. Their completeness may in each case be assessed by comparing the total figures in block 5 with the figures in block 6 for ODA commitments of DAC members combined. The contents of the headings are as follows:

Social Infrastructure and Services

This main category covers efforts to develop the human resource potential and ameliorate living conditions in aid recipient countries. It includes but is not exhausted by:

Education: educational infrastructure, services and investment in all areas. Specialised education in particular fields such as agriculture or energy is reported against the sector concerned.

Health and Population: assistance to hospitals and clinics, including specialised institutions such as those for tuberculosis, maternal and child care; other medical and dental services, including disease and epidemic control, vaccination programmes, nursing, provision of drugs, health demonstration, etc.; public health administration and medical insurance programmes; reproductive health and family planning.

Water Supply, Sanitation and Sewerage: all assistance given for water supply, use and sanitation, river development, but excluding irrigation systems for agriculture.

Economic Infrastructure and Services

This major heading covers assistance for networks, utilities and services that facilitate economic activity. It includes, but is not exhausted by:

Energy: production and distribution of energy, including peaceful use of nuclear energy.

Transport and Communications: equipment or infrastructure for road, rail, water and air transport, and for television, radio and electronic information networks.

Production Sectors

This main heading groups contributions to all directly productive sectors. It comprises:

Agriculture: crop and livestock development, provision of production requisites such as farm machinery and fertiliser, irrigation, pest control, veterinary services; services to the agricultural sector, fishing and forestry (including tree crops); conservation and extension, land reclamation; land and soil surveys, land and water use; agricultural construction; storage and transport facilities. Agricultural development banks are included under this heading.

Industry, mining and construction: assistance to extractive and manufacturing industries of all kinds, including prospecting and geological surveys, development and refining of petroleum and ores, processing of food and other agricultural products, manufacture of fertilisers and farm machinery, cottage industry and handicrafts and non-agricultural storage and warehousing.

Trade and Tourism: export promotion, trade, commerce and distribution; banking (including industrial development banks) and hotel and other tourist facilities.

Multisector

Support for projects which straddle several sectors, with a concentration on the environment, gender projects, and urban and rural development.

Programme Assistance

All general developmental contributions other than debt reorganisation, made available with no pre-imposed sector allocation, e.g., balance of payments and budget support and funds made available for capital projects at the recipient's choice, but not subject to agreement by the donor. This item includes in particular, sector-unallocated structural adjustment assistance, and:

Food Aid: supplies of food under bilateral programmes.

Action relating to debt

Debt forgiveness, rescheduling, refinancing, etc.

Emergency Aid

Emergency and distress relief in cash or in kind, including relief food aid and aid to refugees.

Other and unallocated/unspecified

Aid which cannot be assigned to another part of the table, and in the case of project or sector assistance, commitments for which the sectoral destination had not been specified. Includes aid to non-governmental organisations and administrative costs.

12. In addition to this sectoral information, block 6 includes data on aggregate flows of *Technical Co-operation*. This is defined as activities whose primary purpose is to augment the level of knowledge, skills, technical know-how or productive aptitudes of the population of developing countries, i.e., increasing their stock of human intellectual capital, or their capacity for more effective use of their existing factor endowment. Accordingly, the figures relate mainly to activities involving the supply of human resources (teachers, volunteers, experts in various sectors) and action targeted on human resources (education, training, advice). The supply of expertise designed primarily to support the implementation of capital projects ("Investment-Related Technical Co-operation") is not included under this heading.

Reference Section: Indicators

13. Further data for each recipient country are shown for a number of resource flow aggregates, for which detailed information by source is not given in the other blocks of the table. The additional data cover the main classes of private sector transactions of DAC member country residents, disbursements of OOF, and commitments by the official sector of ODA/OA. A number of relevant indicators has also been included; these figures have, in the main, kindly been supplied by the World Bank.

Concepts and Interpretation of Data

14. A note on the main concepts used in this report and remarks on specific features of the data will be found at the end of the volume.

NOTES AND REFERENCES

1. A new two-part DAC List of Aid Recipients was introduced in 1993. Part I of the List covers developing countries eligible to receive Official Development Assistance (ODA); Part II covers countries in transition eligible to receive Official Aid (OA). The full List is reproduced at the end of this volume. See Annex, paragraph A4 for definitions of ODA and OA.
2. Additional aggregate data can be found in the annual report of the DAC Chair: *Development Co-operation: Efforts and Policies of members of the Development Assistance Committee*.
3. See Annex: Definition of Concepts used in this Report.

N.B.: The DAC List of Aid Recipients reproduced at the end of this volume is designed for statistical purposes, not as guidance for eligibility for aid or other preferential treatment. Any reference in the List or elsewhere in this publication to States, entities or territories shall neither imply recognition by OECD member States nor approval by OECD member States of the designations used. The designation "countries" is used as a generic term in its own right covering both "countries" and "territories" and does not carry any special meaning as to the political or legal classification of the recipients concerned.

INTRODUCTION

1. Cette publication s'inscrit dans la série des ouvrages publiés depuis 1977 sous le titre « Répartition géographique des ressources financières allouées aux pays en développement ». Sa présentation et son contenu ont été adaptés pour tenir compte de la nouvelle Liste des bénéficiaires de l'aide établie par le CAD, qui comprend désormais deux parties et inclut les pays d'Europe orientale et de l'ex-Union soviétique. Les données portent sur les éléments suivants :

- versements nets et bruts ;
- engagements ;
- conditions financières ; et
- ventilation par secteur/objet des engagements bilatéraux d'aide publique au développement (APD) ;

elles couvrent plus de 180 pays et territoires en développement et en transition¹ et concernent les années 1998, 1999, 2000, 2001 et 2002 ; elles sont complétées par des indicateurs essentiels pour remettre en perspective les informations sur les apports de ressources à chaque pays. L'objectif poursuivi ici est de présenter un tableau complet du financement externe de chacun des pays considérés. Les données retracent les opérations entre chaque pays bénéficiaire et :

- i) les pays membres du CAD (isolément ou dans leur ensemble)² ;
- ii) les organismes multilatéraux (isolément ou dans leur ensemble) ;
- iii) les autres pays donneurs.

2. Les pays membres du Comité d'aide au développement de l'OCDE pour lesquels des données sont présentées sont : l'Allemagne, l'Australie, l'Autriche, la Belgique, le Canada, le Danemark, l'Espagne, les États-Unis, la Finlande, la France, la Grèce, l'Irlande, l'Italie, le Japon, le Luxembourg, la Norvège, la Nouvelle-Zélande, les Pays-Bas, le Portugal, le Royaume-Uni, la Suède et la Suisse. Les données relatives à la Commission européenne, qui est aussi membre du CAD, sont intégrées dans les chiffres concernant les « organismes multilatéraux ». Les tableaux comportent une ligne supplémentaire (CE + membres de l'UE) qui indique la somme des apports multilatéraux de la CE et des apports bilatéraux des États membres de l'Union européenne. Les données relatives aux apports financiers en provenance de sources multilatérales se rapportent aux organismes suivants : BAfD, BAsD, Banque mondiale, (y compris l'IDA, la SFI et les fonds fiduciaires pour la Facilité pour l'environnement mondial et le Protocole de Montréal), BERD, BID, CARIBANK, CE, FAfD, FIDA, et comprennent les apports concessionnels du FMI et le Fonds nordique de développement. Les apports des organismes multilatéraux financés par des

pays arabes couvrent les organismes et programmes suivants : BADEA, Banque islamique de développement et FODI, pour autant que les données soient disponibles. Les organismes d'assistance technique et de secours des Nations Unies comprennent essentiellement les programmes ou organismes suivants : FNUAP, HCR, PAM, PNUD, UNICEF, UNRWA et les activités dans les pays en développement financées sur le budget normal d'autres institutions, regroupées ici sous la dénomination Assistance technique Nations Unies (ATNU).

Sources des données

3. Les chiffres concernant les apports bilatéraux des membres du CAD sont tirés des réponses fournies par les pays membres aux questionnaires que leur adresse le Secrétariat de l'OCDE. Les données sur les apports multilatéraux sont notifiés par les organisations sur des questionnaires fournis par le Secrétariat de l'OCDE. La couverture des apports des autres pays donneurs varie selon les années. Sont comprises en 2002 les données de l'Arabie Saoudite, de la Corée, des Émirats arabes unis, de l'Estonie, de l'Islande, d'Israël, du Koweït, de la Lettonie, de la Pologne, des Républiques slovaque et tchèque, et de la Turquie. Les données relatives à ces pays sont classées et traitées de manière à les rendre dans toute la mesure du possible conformes aux normes et définitions du CAD³.

Couverture des données

4. Les données sur les apports de ressources sont tirées de séries qui recouvrent la quasi-totalité des opérations dans chacune des catégories présentées. Y sont, pour l'essentiel, omis les éléments suivants :

- i) les apports privés en provenance des pays non membres du CAD ;
- ii) les dons des organismes privés bénévoles, pour lesquels on ne dispose d'aucune ventilation géographique.

Montants non ventilés

5. Les chiffres totaux mentionnés dans une source comportent habituellement une composante regroupant les apports « non ventilés sur le plan géographique ». Ces derniers sont exclus des données par pays bénéficiaire présentées dans les sections B et C mais ils sont pris en compte dans les tableaux « Non ventilé » et « Ensemble des bénéficiaires ». A titre d'exemple de ce genre d'apports, on peut citer les dépenses administratives, qui sont supportées principalement sur le territoire du pays donneur. Une partie des sommes notifiées au CAD comme relevant des apports non ventilés sur le plan

géographique entre effectivement dans cette catégorie : c'est le cas, notamment, des dépenses encourues dans le pays donneur au profit de l'ensemble des pays en développement (pour la recherche sur les maladies tropicales, par exemple). Une autre partie tient aux lacunes des méthodes de collecte ou à des règles de confidentialité qui empêchent de divulguer le nom du pays partenaire. Dans le cas des opérations du secteur public des membres du CAD et des organismes multilatéraux, le montant des apports non ventilés sur le plan géographique est globalement trop faible pour entraîner une sous-estimation significative du chiffre relatif à un pays bénéficiaire. Par contre, pour les apports du secteur privé, il se peut que les recettes nettes d'un pays soient largement sous-estimées, en particulier s'il s'agit :

- a) d'un pays où des investissements sont effectués dans le secteur pétrolier ;
- b) d'un pays accueillant des investissements de pays notificateurs dont les données incluent un montant important d'apports non ventilés sur le plan géographique (Australie, Canada, Nouvelle-Zélande) ;
- c) d'un pays où les investissements des membres du CAD passent par l'intermédiaire d'un centre financier offshore qui, bien qu'apparaissant comme la destination de l'opération, ne soumet pas lui-même de notification au CAD.

PRÉSENTATION

6. Le rapport comprend trois sections :

Section A

7. Cette section contient 34 tableaux couvrant la période 1996 à 2002. Ces tableaux indiquent pour chaque pays ou territoire en développement (c'est-à-dire pour chacun des pays figurant dans la partie I de la Liste des bénéficiaires de l'aide établie par le CAD reproduite à la fin du présent ouvrage) :

- a) les versements nets d'aide publique au développement et d'aide publique (seuls ces versements sont également montrés pour chaque membre du CAD individuellement) ;
- b) les engagements d'aide publique au développement et d'aide publique ;
- c) les apports totaux de ressources sur la base des versements nets, en provenance, d'une part, de l'ensemble des pays du CAD, et d'autre part de toutes sources confondues.

Deux tableaux présentent, pour chaque bénéficiaire, les versements nets d'aide à des conditions libérales (« APD/AP multilatérale ») et les versements nets totaux émanant de l'ensemble des organismes multilatéraux. D'autres tableaux présentent les apports totaux nets de financement public du développement, les apports totaux nets du secteur privé de toutes provenances ventilés par bénéficiaires, ainsi que les apports au titre de la coopération technique de programmes d'APD/AP des pays membres du CAD. Chaque tableau de cette section fournit un récapitulatif des ressources reçues par différents groupes de pays.

Sections B et C

8. La section B porte sur les apports aux pays et territoires en développement figurant à la partie I de la Liste des bénéficiaires de l'aide établie par le CAD et la section C sur les apports aux PECO/NEI en transition relevant de la partie II de la Liste. Ainsi, un pays peut être présent dans les deux sections s'il était dans la partie I certaines années et dans la partie II d'autres années. Dans chacune de ces sections, chaque pays se voit allouer une page. Les pays sont classés par ordre alphabétique à l'intérieur de chaque section. A la fin de chacune figure un tableau de même format fournissant un « total général ». Dans la section B uniquement, on trouvera également une série de tableau reprenant les mêmes informations pour divers groupes de pays en développement classés par catégorie de revenu et par région géographique. Des données sur la population, le RNB par habitant et d'autres indicateurs sont fournies à la fin de chaque tableau.

Couverture

Tableaux détaillés présentant pour les différents pays bénéficiaires les ressources reçues, ventilées par origine

9. Les tableaux par pays fournis dans les sections B et C contiennent chacun des pavés dans lesquels sont récapitulés les catégories suivantes d'apports par origine :

1. Apports totaux nets.
2. APD totale nette (AP totale nette dans la section C).
3. Prêts d'APD bruts (prêts d'AP bruts dans la section C).
4. Dons.
5. Engagements d'APD bilatérale, par objet.
6. Pour mémoire : indicateurs.

Les chiffres fournis dans le pavé 5 sont exprimés sur la base des engagements ; ceux présentés dans les pavés 1-4 sont exprimés sur la base des versements.

10. Dans chaque tableau, les apports des différents membres du CAD et des institutions multilatérales sont indiqués séparément, avec des sous-totaux concernant, respectivement, l'ensemble des membres du CAD, l'ensemble des organismes multilatéraux, l'ensemble des autres pays donneurs (voir paragraphe 3) et la Commission européenne et les États membres de l'UE. Les chiffres relatifs au FMI portent uniquement sur les prêts du Fonds fiduciaire et les opérations du FAS et du FRPC et excluent les tirages sur les tranches nationales auprès du FMI. Les prêts consentis par les banques ayant leur siège dans chaque pays membre du CAD sont inclus avec les autres dans les données du pavé « Recettes totales, nettes ».

11. La ventilation sectorielle des engagements d'APD bilatérale, présentée dans le pavé 5, indique le secteur économique de destination (c'est-à-dire le secteur spécifique de l'économie ou la structure sociale du pays bénéficiaire dont l'aide favorise ou est destinée à favoriser le développement), et non le type des biens ou services fourni au bénéficiaire. Les montants indiqués correspondent aux agrégats des projets individuels du Système de Notification des Pays Créditeurs complétés par les données sur la ventilation sectorielle de la coopération tech-

nique, l'aide alimentaire et l'aide d'urgence. Leur fiabilité peut être vérifiée dans chaque cas en comparant le total des données du pavé 5 avec les données du pavé 6 relatives aux engagements d'APD par l'ensemble des pays du CAD. On trouvera ci-après une description de ce que recouvrent précisément les différentes rubriques :

Infrastructure et services sociaux

Cette grande catégorie rend essentiellement compte des efforts faits pour mettre en valeur le potentiel des ressources humaines des pays bénéficiaires de l'aide et améliorer les conditions de vie. Elle comprend entre autres :

Éducation : infrastructure, services et investissements dans l'éducation. La formation portant sur un domaine particulier, comme l'agriculture ou l'énergie, sera classée en regard du secteur intéressé.

Santé et population : aide destinée aux hôpitaux et dispensaires, y compris les établissements spécialisés comme les sanatoriums pour tuberculeux ; la protection maternelle et infantile ; les autres services médicaux et dentaires, y compris la lutte contre les maladies et les épidémies, les programmes de vaccination, les soins infirmiers, la fourniture de médicaments, les services de démonstration relatifs à la santé, etc. ; l'administration de la santé publique et les programmes d'assurance-maladie ; la santé génésique et le planning familial.

Infrastructure et services économiques

Cette grande catégorie regroupe l'aide fournie pour l'infrastructure et les services qui facilitent l'activité économique. Elle comprend entre autres :

Distribution d'eau et assainissement : toutes les formes d'aide fournie pour la distribution d'eau, son utilisation et l'assainissement ; l'aménagement des bassins fluviaux, à l'exclusion des systèmes d'irrigation pour l'agriculture.

Énergie : production et distribution d'énergie, y compris les utilisations pacifiques de l'énergie nucléaire.

Transports et communications : fourniture de matériel ou création d'infrastructures pour les transports par route, par rail, par eau et par air, ainsi que pour les réseaux d'information radio et télévision.

Secteurs de production

Sous ce titre sont groupés les apports d'aide à tous les secteurs directement productifs, comprenant :

Agriculture : développement de la culture et de l'élevage, fourniture de moyens de production tels que matériel agricole et engrains, service d'irrigation, de lutte contre les ennemis des cultures, ou vétérinaires ; services agricoles, exploitation forestière (y compris arboriculture) et pêche ; conservation des sols et extension des terres cultivables ; construction de bâtiments agricoles, stockage et moyens de transport pour l'agriculture ; études géodésiques et pédologiques, utilisation des sols et des ressources en eau. Les activités des banques de développement agricoles sont incluses dans cette rubrique.

Industries manufacturières, industries extractives, construction : aide en faveur des industries manufacturiè-

res et d'extraction de toutes sortes, y compris les études géologiques et de projection, le développement et le raffinage du pétrole et des minerais, la transformation des produits alimentaires et autres produits agricoles, la fabrication d'engrais et de matériel agricole, l'artisanat et le stockage, et l'entreposage de produits non agricoles.

Commerce et tourisme : promotion des exportations, commerce et distribution ; banques (y compris les banques de développement industriel) et hôtels et autres installations touristiques.

Destination plurisectorielle

Aide en faveur de projets, qui chevauchent plusieurs secteurs et visent essentiellement l'environnement, la parité hommes-femmes et le développement urbain et rural.

Aide-programme

Toutes les contributions, autres que le réaménagement de la dette, mises à la disposition du bénéficiaire sans affectation préalable à un secteur, par exemple pour le soutien de la balance des paiements ou du budget, les fonds accordés pouvant être consacrés à des projets d'équipement que le bénéficiaire choisit sans solliciter l'accord du donneur. L'aide à l'ajustement structurel non affectée à un secteur est également incluse dans cette rubrique, ainsi que :

Aide alimentaire : fourniture de denrées alimentaires dans le cadre de programmes bilatéraux.

Actions se rapportant à la dette

Toutes les opérations d'effacement, de rééchelonnement ou de refinancement de dettes.

Aide d'urgence (hors aide alimentaire)

Secours d'urgence, en espèces ou en nature, y compris l'aide alimentaire d'urgence et l'aide aux réfugiés.

Autres et non alloué

Toutes formes d'aide qui ne peuvent pas être portées dans une autre partie du tableau ainsi que, dans le cas de l'aide à des projets ou de l'aide sectorielle, les engagements dont le secteur de destination n'a pas été précisé. Comprend aussi l'aide aux organisations non-gouvernementales et les coûts administratifs

12. Pour compléter ces informations sectorielles, le pavé 6 contient des données sur les apports globaux de *coopération technique*. Ceux-ci recouvrent les activités ayant pour but essentiel d'élever le niveau des connaissances, des qualifications, du savoir-faire technique ou des aptitudes productives de la population des pays en développement, c'est-à-dire d'accroître le stock de capital intellectuel de ces pays, ou leur aptitude à utiliser plus efficacement leur dotation en facteurs. En conséquence, il s'agit principalement d'activités comportant l'apport de ressources humaines (enseignants, volontaires, experts) ou d'actions ciblées sur les ressources humaines (enseignement, formation, conseils).

Pour mémoire : indicateurs

13. Sous cette rubrique figurent, pour chaque pays bénéficiaire, des renseignements supplémentaires sur certaines catégories d'apports de ressources qui ne sont pas ventilées par origine dans les autres pavés. Ces données supplémentaires concernent les principaux types d'opérations entreprises par des résidents des pays membres du CAD relevant du secteur privé ; les engagements (APD/AP + AASP) souscrits par le secteur public ; les conditions dont sont assortis les engagements d'APD souscrits soit par l'ensemble des

membres du CAD, soit par l'ensemble des sources d'aide. Un certain nombre d'indicateurs figurent également dans cette rubrique. A quelques exceptions près, ces dernières statistiques ont été aimablement communiquées par la Banque mondiale.

Concepts et interprétation des données

14. On trouvera à la fin du présent volume une note récapitulant les principaux concepts utilisés, ainsi que des remarques portant sur des aspects particuliers des données contenues dans le rapport.

NOTES ET RÉFÉRENCES

1. Une nouvelle Liste en deux parties des bénéficiaires de l'aide établie par le CAD est entrée en vigueur en 1993. La partie I de cette liste englobe les pays en développement susceptibles de recevoir une aide publique au développement (APD) et la partie II intègre les pays en transition susceptibles de recevoir une aide publique (AP). La Liste est reproduite dans son intégralité à la fin du présent ouvrage. Se reporter au paragraphe A4 de l'annexe pour les définitions de l'APD et de l'AP.
2. On trouvera d'autres données globales dans le rapport annuel du président du CAD : *Coopération pour le développement – Efforts et politiques des membres du Comité d'aide au développement*.
3. Voir annexe : définition des concepts utilisés dans ce rapport.

N.B. : La liste des bénéficiaires de l'aide établie par le CAD, qui est reproduite à la fin du présent ouvrage, est destinée à des fins purement statistiques et n'a pas pour objet d'orienter le choix des pays pouvant bénéficier d'une aide ou d'un autre traitement préférentiel. La mention dans cette Liste, ou à un autre endroit de la présente publication, d'un État, d'une entité ou d'un territoire n'implique ni sa reconnaissance par les pays membres de l'OCDE, ni l'approbation par ces derniers de l'appellation utilisée. Le terme « pays » est employé dans son sens général pour désigner aussi bien des territoires que des pays et n'a aucune implication particulière pour le classement politique ou juridique des bénéficiaires en cause.

EDITOR'S NOTE

1. To make a rough adjustment for exchange rate and price changes *for DAC countries combined* (i.e. to convert to 2001 constant prices and exchange rates) divide the data for each year by the following coefficients:

1998	1999	2000	2001	2002
1.0674	1.0851	1.0377	1	1.0382

2. As of end 2002, the category "Least developed countries" (LDCs) defined by the United Nations comprised 49 countries. The data shown for the group are for all 49 countries, irrespective of the date at which they were included in the category.
3. Data on flows from member countries of the European Union cover the countries that were members of both the EU and the DAC in 2002, regardless of their date of accession to either group.
4. Bermuda, the Cayman Islands, Chinese Taipei, Cyprus, the Falkland Islands, Hong Kong (China) and Israel transferred from Part I to Part II of the DAC List of Aid Recipients on 1.1.97. Flows to them up to and including 1996 are shown in Section A under "Developing Countries and Territories". Flows to them from 1997 are shown in Section A under "Countries and Territories in Transition", and in Section C.
5. Moldova transferred from Part II to Part I of the List on 1.1.97, so flows to it up to 1996 are shown in Section A under "Countries and Territories in Transition"; while flows to it from 1997 are shown in Section A under "Developing Countries and Territories", and in Section B.
6. Aruba, French Polynesia, Gibraltar, Korea, Libya, Macao, Netherlands Antilles, New Caledonia, Northern Marianas and Virgin Islands (UK) transferred from Part I to Part II of the DAC List of Aid Recipients on 1.1.2000. Flows to them up to and including 1999 are shown in Section A under "Developing Countries and Territories", and in Section B. Flows to them in 2000 are shown in Section A under "Countries and Territories in Transition", and in Section C.

NOTE DE L'ÉDITEUR

1. Les déflateurs suivants (facteurs de division), relatifs à *l'ensemble des pays du CAD* permettront au lecteur d'ajuster approximativement les valeurs ici pour tenir compte de l'effet combiné des variations des taux de change et des prix afin d'obtenir ainsi des montants aux prix et taux de change constants de 2001 :

1998	1999	2000	2001	2002
1.0674	1.0851	1.0377	1	1.0382

2. La catégorie « des pays les moins avancés » (PMA) définie par les Nations Unies comprenait 49 pays en l'an 2002. Les données présentées dans ce rapport pour ce groupe recouvrent l'ensemble de ces 49 pays, quelle que soit la date à laquelle il a été décidé de les inclure dans cette catégorie.

3. Les données sur les flux des pays membres de l'Union européenne se réfèrent aux pays qui étaient membres et de l'UE et du CAD en 2002, quelle que soit la date de leur accession à l'un ou l'autre de ces groupes.

4. Les Bermudes, les îles Caïmans, Chypre, les îles Falkland, Hong-Kong (Chine), Israël et le Taipei chinois ont été transférés de la partie I à la partie II de la Liste des bénéficiaires de l'aide établie par le CAD à compter du 1^{er} janvier 1997. Les apports à ces pays jusqu'en 1996 sont montrés dans la section A sous la catégorie « Pays et territoires en développement ». Les apports à ces pays depuis 1997 sont montrés dans la section A sous la catégorie « Pays et territoires en transition », et dans la section C.

5. La République de Moldova a été reclasée de la partie II à la partie I de la Liste à partir du 1^{er} janvier 1997, par conséquent les apports qu'elle a reçus jusqu'en 1996 sont montrés dans la section A sous la catégorie « Pays et territoires en transition » ; de la même manière, les apports reçus par la République de Moldova depuis 1997 sont montrés dans la section A sous la catégorie « Pays et territoires en développement », et dans la section B.

6. Les Antilles néerlandaises, Aruba, la Corée, Gibraltar, la Libye, Macao, les Mariannes du Nord, la Nouvelle-Calédonie, la Polynésie française et les îles Vierges (RU) ont été transférés de la partie I à la partie II de la Liste des bénéficiaires de l'aide établie par le CAD à compter du 1^{er} janvier 2000. Les apports à ces pays jusqu'en 1999 sont montrés dans la section A sous la catégorie « Pays et territoires en développement », et dans la section B. Les apports à ces pays en 2000 sont montrés dans la section A sous la catégorie « Pays et territoires en transition » et dans la section C.

DEFINITIONS OF CONCEPTS USED IN THIS REPORT

A1. *Disbursements* represent the actual international transfer of financial resources. They may be recorded at one of several stages: provision of goods and services, placing of funds at the disposal of the recipient in an earmarked fund or account, withdrawal of funds by the recipient from an earmarked fund or account, payment by the donor of invoices on behalf of the recipient, etc. The disbursement mechanism used tends to vary as a function of the type of financial (or technical) co-operation flow involved. Internal development-related expenditures (e.g. administrative costs, development research in the donor country) are measured at the point at which payment is made by the official sector. Disbursements may be recorded gross (the actual amounts disbursed) or net (i.e., less repayments of principal in respect of earlier loans).

A2. A *commitment* is a firm obligation expressed in an agreement or equivalent contract and supported by the availability of public funds, undertaken by the government, an official agency of the reporting country or an international organisation, to furnish assistance of a specified amount under agreed financial terms and conditions and for specific purposes, for the benefit of a recipient country.

A3. *Grant Element*: reflects the financial terms of a transaction: interest rate, maturity (interval to final repayment) and grace period (interval to first repayment of capital). It is a measure of the concessionality (softness) of a loan. The extent of concessionality can be measured either as the benefit to the borrower, or the opportunity cost to the lender. Both benefit and opportunity cost depend on the interest rate and duration of the loan. In a benefit calculation, concessionality would be calculated from the difference between the interest charged and the market rate of interest which the borrower would otherwise have had to pay. In an opportunity cost calculation, the concessionality would be calculated from the difference between the interest charged and the return that the lender could have expected from the next most profitable means of investing the capital. DAC statistics generally measure costs to donors, and consideration of opportunity costs played an important part in determining a reference rate of interest for calculating grant elements. For practical purposes this was set as 10 per cent. Thus, the grant element is nil for a loan carrying an interest rate of 10 per cent; it is 100 per cent for a grant; and it lies between these two limits for a soft loan. Generally speaking, a loan will not convey a grant element of over 25 per cent if its maturity is less than 10 years, unless its interest rate is well below 5 per cent. If the face value of a loan is multiplied by its grant element the result is referred to as the "grant equivalent" of that loan.

Aggregates and Resource Flow Categories

A4. *Official Development Assistance* is defined as those flows to developing countries and multilateral institutions provided by official agencies, including state and local governments, or by their executive agencies, each transaction of which meets the following tests:

- a) it is administered with the promotion of the economic development and welfare of developing countries as its main objective; and
- b) it is concessional in character and conveys a grant element (see paragraph A3) of at least 25 per cent.

Official aid comprises flows which meet the tests of ODA, but are directed to countries on Part II of the DAC List of Aid Recipients.

A5. *Grants*: this heading covers transfers, in money or in kind, for which no repayment is required. It includes grants for technical co-operation and grant-like flows, i.e., loans (or commodities for sale) the proceeds of which will not be repatriated by the donor, but placed in an account for the use of the recipient. The following are excluded: pensions, reparations and indemnification payments to private individuals or firms, and insurance and similar payments to residents of developing countries.

A6. *ODA/OA Loans*: loans with maturities of over one year and meeting the criteria set out in paragraph A4, extended by governments or official agencies, and for which repayment is required in convertible currencies or in kind. Rescheduling (maturity extension of loans originally made by a government or official agency) and loans made by a government or an official agency to refinance indebtedness due to the private or official sector, are included if reported as Official Development Assistance or Official Aid, otherwise as "Other Official Flows". The net data are reported after deduction of amortisation payments and the impact of other measures reducing debt (e.g. forgiveness).

A7. *Other Official Flows*: transactions by the official sector whose main objective is other than development-motivated, or, if development-motivated, whose grant element is below the 25 per cent threshold which would make them eligible to be recorded as ODA/OA. The main classes of transactions included here are official export credits, official sector equity and portfolio investment, and debt reorganisation undertaken by the official sector at non-concessional terms (irrespective of the nature or the identity of the original creditor).

A8. *Total Official Flows*: the sum of Official Development Assistance/Official Aid (ODA/OA) and Other Official Flows

(OOF) represents the total (gross or net) disbursements by the official sector at large to the recipient country shown.

A9. Funds provided by the official sector to support export credits or direct investment by the private sector are treated in this report as an indistinguishable part of the relevant private sector transactions. This approach differs from that in the aggregate statistics presented in other DAC publications, where these amounts are included as part of the official sector total, and the aggregate amounts for the private sector reduced correspondingly. For purposes of geographical allocation, the pertinent concept is the transactor dealing with a developing country; this latter is not concerned with the sources of the transactor's funds, as its indebtedness is to the transactor, not his sources of finance. By contrast, the aggregate statistics for individual donor countries place emphasis on the source of funds, which governs the extent to which official policy can determine the amount, terms and distribution of transactions in which official sector resources form part of the total financing package.

A10. *Official Development Finance (ODF)*, measured for recipient countries only, is defined as the sum of their receipts of bilateral ODA, concessional and non-concessional resources from multilateral sources, and bilateral other official flows made available for reasons unrelated to trade, in particular loans to refinance debt.

A11. *Total Contractual Lending*: bilateral ODA/OA and OOF loans plus officially guaranteed private export credits *i.e.*, all official and officially-supported lending. Excludes unguaranteed loans and credits extended by the banking sector.

A12. *Multilateral Agencies*: the list of multilateral agencies for which data are shown separately in this report is given in the Introduction. To the extent possible, a distinction has been made between concessional and non-concessional flows from multilateral agencies. In general, loan disbursements are treated as non-concessional if made from "ordinary capital" resources and as concessional if made from a "soft window". The grant element criteria discussed in

paragraph A3 are not applied to the transactions of multi-lateral agencies.

A13. *Total Receipts, Net*: in addition to Official Development Assistance or Official Aid, this heading includes in particular: other official bilateral transactions which are not concessional or which, even though they have concessional elements, are primarily trade facilitating in character (*i.e.*, "Other Official Flows"); changes in bilateral long-term assets of the private non-monetary and monetary sectors, in particular guaranteed export credits, private direct investment, portfolio investment and, to the extent they are not covered in the preceding headings, loans by private banks. Flows from the multilateral sector which are not classified as concessional are also included here.

Relationships Between the Categories Shown in the Report

A14. The total net resource flow data presented for a recipient country ("total net receipts") is the sum of items (1 + 2 + 3 = 4) in the table below.

Categories	DAC Donors	Multilateral Donors	Arab Donors
1. ODA, Net	By country	By agency	As a group
2. OOF, Net	As a group	As a group	As a group
3. Private Sector Flows, Net	As a group	Not applicable	Not available
4. Total Resource Flows, Net	By country	By agency	Incomplete

A15. "Private sector, net" is broken down, for DAC members combined, into direct investment, portfolio investment and export credits (net). The transactions covered are those undertaken by residents of DAC member countries. Portfolio investment corresponds to bonds and equities. Inflows into emerging countries' stockmarkets are, however, heavily understated.

NOTES ON THE INTERPRETATION OF CERTAIN DATA

A16. In establishing the statistical data in the present report, the aim is to present the fullest possible record of the resources put at the disposal of each country covered. However, there are some inconsistencies in members' reporting. Although they are of marginal impact at aggregate level, it was nevertheless necessary to make estimates which in some instances affect the data shown, and in others were intended to fill gaps in the data originally submitted.

A17. The following list sets out the main areas in which particularities of the data stemming from these causes could have some influence on their understanding or use by the reader.

Data for Country Groups

a) Contents of the Groups

A18. See DAC List of Aid Recipients at the end of this volume.

b) Treatment of Unallocated Amounts

A19. Some reporting countries are unable to supply a full geographical distribution. One element here is that some commitments or disbursements in fact relate to expenditures in a given region (e.g., West Africa) or group of countries (e.g., the Least Developed Countries). The data shown for countries and for groups are restricted to those which are available broken down by recipient. Amounts reported as provided to a region or group are included as "unallocated". Unallocated amounts also include commitments and disbursements concerning expenditures on the territory of the donor country for research specific to some developing countries' problems (e.g., tropical diseases) or in the form of subsidies to nationals of developing countries, e.g., for apprenticeships, or school or university tuition; there are obvious statistical difficulties in assigning

these amounts to the countries of origin of the people concerned.

Other aspects

A20. *Negative Grants*: the return to the donor of unspent balances previously disbursed as grants can result in negative grant figures.

A21. *Cancellations of Commitments*: the data on commitments concern new commitments entered into during the calendar year. They exclude commitments that were cancelled in the year they were made, but are not adjusted to allow for cancellations during the year reported on of commitments made in earlier years.

A22. *Effect of Changes in Exchange Rates*: the currency unit used throughout this report is the US dollar. Loans are often denominated in another currency. If that currency strengthens *vis-à-vis* the dollar, repayments on the loan are reflected in the statistics by an increased number of dollars. This accounts for a number of cases in which cumulative repayments appear to exceed the original amount lent. Similarly, the weakening of a currency produces cases in which repayments, expressed in dollars, appear to be less than the original amount lent. In comparing data on changes in debt with the figures shown for net resource flows in this report, it should also be borne in mind that the debt data are converted to dollars at the end-of-period rate, whereas the flow data are converted at the annual average rate.

A23. *Resource Flows from the European Commission*: the figures shown pertain to outflows from the EC, including outflows from the European Investment Bank at market terms. The latter can be ascertained from the data in the present volume as the difference between a country's Total Net Receipts from the EC and its receipts of Total Net ODA/OA from the EC.

DÉFINITION DES CONCEPTS UTILISÉS DANS LE PRÉSENT RAPPORT

A1. Les *versements*, tels que définis dans le présent rapport, représentent le transfert effectif de ressources financières au niveau international. Ils peuvent être saisis à l'un des stades suivants : fourniture de biens et services, dépôt de sommes mises à la disposition du bénéficiaire dans un fonds ou un compte réservé, retrait de fonds par le bénéficiaire sur un compte ou un fonds réservé, paiement de factures par le donneur pour le compte du bénéficiaire, etc. Les modalités de versement tendent à varier en fonction du type d'apport de coopération financière (ou technique) en cause. Les dépenses internes liées au développement (frais administratifs, recherches sur le développement dans le pays donneur) sont mesurées au stade du paiement par le secteur public). Les versements sont comptabilisés soit bruts (c'est-à-dire les montants effectivement versés), soit nets (c'est-à-dire moins le remboursement du capital au titre de prêts antérieurs).

A2. Un *engagement* s'entend d'une obligation ferme, stipulée dans un contrat ou un accord similaire et étayée par la mise à disposition de fonds publics ; par cette obligation, le gouvernement, un organisme public du pays déclarant ou un organisme multilatéral s'engage à fournir, au profit du pays bénéficiaire, une aide d'un montant spécifié, assortie de conditions financières déterminées et destinées à des fins données.

A3. *Élément de libéralité* : résume les conditions financières d'une opération : taux d'intérêt, durée de remboursement (délai jusqu'au remboursement final) et différé d'amortissement (délai jusqu'au premier remboursement du capital). Il s'agit d'une mesure de la libéralité d'un prêt. Le degré de libéralité peut s'entendre soit de l'avantage allant à l'emprunteur soit du coût d'opportunité pour le prêteur. L'un comme l'autre dépendent du taux d'intérêt et de la durée du prêt. Dans le calcul de l'avantage procuré, le degré de libéralité serait la différence entre le taux d'intérêt perçu et le taux d'intérêt du marché que l'emprunteur aurait dû acquitter de toute manière. Dans le calcul du coût d'opportunité, le degré de libéralité serait la différence entre le taux d'intérêt perçu et la rentabilité que l'emprunteur aurait pu attendre de l'investissement en capital le plus rentable venant en deuxième position. Les statistiques du CAD mesurent en général les coûts pour les donneurs, et la prise en considération du coût d'opportunité a joué un rôle important dans la détermination du taux d'intérêt de référence pour le calcul des éléments de libéralité. Pour des raisons d'ordre pratique, ce taux est fixé à 10 pour cent. Par conséquent, l'élément de libéralité d'un prêt de 10 pour cent est nul ; il est de 100 pour cent dans le cas d'un don ; et il se situe entre ces deux extrêmes pour un prêt libéral. En général, l'élément de libéralité d'un prêt remboursable en moins de 10 ans ne dépassera pas

25 pour cent, sauf si son taux d'intérêt est très inférieur à 5 pour cent. En multipliant la valeur nominale d'un prêt par son élément de libéralité, on obtient « l'équivalent-don » de ce prêt.

Agrégats et apports de ressource par catégories

A4. Par *aide publique au développement*, on entend l'ensemble des apports de ressources qui sont fournis aux pays en développement et aux institutions multilatérales par des organismes officiels, y compris les collectivités locales, ou par leurs agents d'exécution et qui, considérés au niveau de chaque opération, répondent aux critères suivants :

- a) être dispensés dans le but essentiel de favoriser le développement économique et l'amélioration du niveau de vie dans les pays en développement ; et
- b) revêtir un caractère de faveur et comporter un élément de libéralité (voir paragraphe A3) d'au moins 25 pour cent.

L'aide publique comprend les apports de ressources qui satisfont les critères de l'APD mais sont destinés à des pays inscrits dans la partie II de la Liste des bénéficiaires établie par le CAD.

A5. *Dons* : cette rubrique couvre les transferts, en espèces ou en nature, qui n'impliquent aucun remboursement. Elle inclut les dons au titre de la coopération technique et les apports assimilables à des dons, c'est-à-dire les prêts dont les remboursements ne seront pas rapatriés dans le pays donneur, ou des marchandises destinées à la vente – le produit de ces opérations devant être placé en compte à l'usage du pays bénéficiaire. Sont également exclus les pensions, les paiements de réparation et d'indemnisation à des particuliers ou à des firmes, et les paiements d'assurances et autres paiements similaires à des résidents de pays en développement.

A6. *Prêts d'APD/AP* : ce sont les prêts à plus d'un an accordés par des gouvernements et des organismes publics, remboursables en monnaies convertibles ou en nature, qui satisfont aux critères énoncés dans le paragraphe A4 ci-dessus. Les opérations de rééchelonnement des échéances (allongement de la durée de prêts initialement accordés par un gouvernement ou un organisme public) et les prêts octroyés par un gouvernement ou un organisme public pour refinancer une dette contractée auprès du secteur privé ou du secteur public sont inclus dans cette catégorie s'ils sont notifiés comme aide publique au développement ou aide publique ; sinon, ils sont classés dans les « autres apports du secteur public ». Les montants nets sont indiqués après déduction des rem-

boursements et d'autres moyens de réduction de l'encours par exemple l'effacement de la dette.

A7. *Autres apports du secteur public (AASP)* : il s'agit des opérations du secteur public dont le but essentiel est autre que le développement ou qui, tout en visant à favoriser le développement, sont assorties d'un élément de libéralité inférieur au seuil de 25 pour cent à partir duquel elles auraient pu être notifiées comme de l'APD/AP. Les principales catégories d'opérations couvertes dans les AASP sont les crédits publics à l'exportation, les prises de participation et les investissements de portefeuille du secteur public et le réaménagement de la dette effectué par le secteur public aux conditions du marché (et ce, quelle que soit la nature ou l'identité du créancier initial).

A8. *Apports totaux du secteur public* : il s'agit du total de l'aide publique au développement/aide publique (APD/AP) et des autres apports du secteur public (AASP). Cet agrégat correspond aux versements (bruts ou nets) effectués par le secteur public dans son ensemble aux pays bénéficiaires considérés.

A9. Les ressources fournies par le secteur public pour soutenir les crédits à l'exportation ou les investissements directs du secteur privé sont comptabilisées dans le présent rapport avec les opérations correspondantes du secteur privé. Cette approche diffère de celle utilisée dans les données statistiques agrégées présentées dans certains autres documents établis par le CAD, où les montants en cause sont inclus dans les totaux afférents au secteur public et où les montants relatifs au secteur privé sont réduits proportionnellement. Dans l'optique de la répartition géographique, il convient de retenir comme unité statistique l'opérateur qui est en relation avec un pays en développement ; l'emprunteur ne s'intéresse pas à l'origine des capitaux que cet opérateur lui fournit, son endettement étant envers cet opérateur et non envers les sources de financement de ce dernier. Dans les statistiques agrégées pour les pays donneurs, en revanche, l'accent est mis sur les sources des fonds, car ce sont elles qui déterminent la mesure dans laquelle les politiques mises en œuvre par le secteur public peuvent fixer les montants totaux, les conditions financières et la répartition géographique des apports, dès lors que ceux-ci englobent des ressources en provenance du secteur public.

A10. *Financement public du développement (FPD)* (agrégat calculé pour les seuls pays bénéficiaires) : le total pour chaque bénéficiaire des apports d'APD/AP bilatérale, des ressources mises à disposition par le secteur multilatéral, qu'elles comportent ou non un élément de libéralité, et des AASP fournis pour des raisons n'ayant pas trait au commerce international, plus particulièrement les prêts dont l'objet est de refinancer l'endettement.

A11. *Total des prêts contractuels* : il s'agit du total des prêts bilatéraux au titre de l'APD/AP ou des AASP, et des crédits privés garantis à l'exportation, c'est-à-dire la totalité des prêts en provenance du secteur public ou garantis par celui-ci. Les prêts non garantis et les crédits financiers accordés par le secteur bancaire sont exclus.

A12. *Organismes multilatéraux* : la liste des organismes multilatéraux auxquels se réfèrent les données dans le présent rapport a été présentée dans l'introduction. Dans la mesure du possible, on a distingué, dans les apports fournis par ces organismes, ceux qui sont assortis de conditions libérales de ceux qui sont assortis des conditions du marché. D'une manière générale, les versements de prêts sont considérés comme non libéraux s'ils sont effectués à l'aide de ressources en capital ordinaire et comme libéraux lorsqu'ils viennent de « guichets spéciaux ». Le critère de l'élément de libéralité discuté au paragraphe A3 n'est pas appliqué aux transactions des agences multilatérales.

A13. *Recettes totales nettes* : outre l'aide publique au développement/aide publique, cette rubrique comprend en particulier : les autres transactions publiques bilatérales qui ne sont pas assorties de conditions libérales ou qui, dans le cas contraire, restent néanmoins de nature essentiellement commerciale (« autres apports du secteur public ») ; les variations des actifs bilatéraux à long terme du secteur privé monétaire et non monétaire, en particulier les crédits à l'exportation garantis, les investissements privés directs et, dans la mesure où ils ne sont pas repris dans les rubriques précédentes, les prêts des banques privées. Les apports en provenance des organismes multilatéraux qui ne sont pas considérés comme assortis de conditions libérales sont aussi inclus dans cette rubrique.

Liens entre les catégories d'apports présentées dans le rapport

A14. Pour un pays bénéficiaire donné, le total net des apports de ressources (« recettes totales nettes ») est la somme des rubriques (1 + 2 + 3 = 4) figurant dans le tableau ci-après.

Catégories	Donneurs du CAD	Donneurs multilatéraux	Donneurs arabes
1. APD, montants nets	Par pays	Par organisme	En tant que groupe
2. AASP, montants nets	En tant que groupe	En tant que groupe	En tant que groupe
3. Apports nets du secteur privé	En tant que groupe	Sans objet	Non disponible
4. Total net des apports de ressources	Par pays	Par organisme	Incomplet

A15. La rubrique « apports nets du secteur privé » est ventilée, pour l'ensemble des membres du CAD, en investissements directs, investissements de portefeuille et crédits à l'exportation (nets). Les opérations recensées dans chaque catégorie sont celles qui sont entreprises par des opérateurs résidents des pays membres du CAD. Les investissements de portefeuille correspondent aux achats d'obligations et aux prises de participation. Les flux vers les marchés des capitaux des économies émergentes sont cependant largement sous-estimés.

NOTE SUR L'INTERPRÉTATION DE CERTAINES DONNÉES

A16. L'élaboration des données statistiques présentées dans ce rapport a pour but de dresser un tableau aussi complet que possible des ressources mises à la disposition de chaque pays visé. Les déclarations des pays membres comportent néanmoins certaines incohérences ou lacunes qui, bien que n'ayant qu'une incidence marginale sur les données agrégées, ont obligé à recourir à des estimations influant, dans certains cas, sur le contenu des données ou permettant, dans d'autres, de combler les lacunes constatées.

A17. On trouvera ci-après la liste des principaux domaines où certaines particularités des données dues à ces facteurs pourraient gêner leur compréhension ou utilisation par le lecteur.

Données par groupes de pays

a) Groupes retenus

A18. Voir, à la fin du volume, la Liste des bénéficiaires de l'aide établie par le CAD.

b) Traitement des montants non ventilés

A19. Certains pays déclarants n'ont pas la possibilité de ventiler la totalité de leurs apports par pays de destination, dans la mesure où les engagements ou les versements concernent des dépenses à entreprendre soit dans une région donnée (par exemple, l'Afrique de l'Ouest), soit dans un groupe de pays donnés (par exemple, les pays les moins avancés). Dans ce rapport, les données présentées pour les pays et pour les groupes sont limitées à celles pouvant être ventilées par bénéficiaires. Les montants notifiés comme ayant été versés à une région ou à un groupe sont inscrits à la rubrique des montants « non ventilés ». A la rubrique des montants non ventilés sont inscrites par ailleurs les ressources engagées ou versées sur le territoire du pays donneur soit pour des recherches consacrées à certains problèmes propres aux pays en développement (maladies tropicales, par exemple), soit sous la forme de subventions à des ressortissants de pays en développement, par exemple pour des stages d'apprentissage ou des cours dans des établissements scolaires ou universitaires ; pour des raisons statistiques évidentes,

ces sommes ne peuvent être réparties entre les pays bénéficiaires.

Autres remarques

A20. *Dons négatifs* : le remboursement à un pays donneur de montants déjà alloués sous forme de dons peut conduire à la notification de montants de dons négatifs.

A21. *Annulation des engagements* : les données relatives aux engagements concernent les nouveaux engagements souscrits dans l'année. Elles excluent les engagements annulés dans l'année où ils ont été souscrits, mais aucune défalcation n'est faite pour tenir compte des annulations au cours de l'année d'engagements souscrits pendant des années antérieures.

A22. *Effet des variations des taux de change* : l'unité monétaire utilisée dans le présent rapport est le dollar des États-Unis. Or, les prêts sont souvent libellés dans une autre monnaie. Si celle-ci se raffermit par rapport au dollar, le montant des remboursements apparaissant dans les statistiques représente un chiffre en dollars plus important. Il est ainsi des cas où le total des remboursements paraît dépasser le montant primitif du prêt. De même, l'affaiblissement d'une monnaie se traduit dans les statistiques par des remboursements dont le total, estimé en dollars, paraît être inférieur au principal. Si on effectue une comparaison des variations de la dette avec les chiffres présentés pour les apports totaux nets de ressources dans le présent rapport, il faut garder à l'esprit que les données relatives à la dette sont converties en dollars au taux s'appliquant en fin de période, tandis que les données relatives aux apports sont converties au taux annuel moyen.

A23. *Apports de ressources en provenance de la Commission européenne* : les chiffres présentés englobent les dons et les prêts de la CE ainsi que les fonds mis à disposition par la Banque européenne d'investissement aux conditions du marché. Ces derniers montants peuvent être déterminés à partir des données figurant dans le présent volume en calculant la différence entre le total des apports de la CE reçus par un pays et le montant de ses recettes d'APD/AP en provenance de la CE.
